

MARINE INFORMATION**NEW EDITION OF SAILING DIRECTIONS**

Pub. 127, Sailing Directions (Enroute) East Coast of Australia and New Zealand, Seventh Edition, 2003, is ready for issue. This publication has been corrected to 31 May 2003, including Notice to Mariners No. 22 of 2003.

This edition is produced by NIMA in digital format only, available on CD-ROM and/or electronic access through the World Wide Web.

NIMA nautical publications as produced in digital format are more robust, expansive and customer friendly than the printed versions. Customers can expect access to data links between publication data sets, video streams, links to other websites, timely up-to-date information and current state of the art graphics, photos and commercial imagery.

Digital Nautical publications will be updated using a binary executable called "Publication Data Update (PDU)". PDU updates are cumulative or sequential ensuring customers will not miss any changes and may be accessed on the Maritime Safety Information Division website (<http://pollux.nss.nima.mil>).

Customers requiring paper versions of NIMA products may purchase them through the U.S. Government Printing Office (GPO) Superintendent of Documents. The NIMA point of contact for this effort is Mr. Adam Veracka (301)227-3173.

CHANGES TO RADIOFAX BROADCAST FREQUENCIES FOR NEW ORLEANS, LOUISIANA

To provide greater coverage, beginning October 1, 2003 the broadcast of radiofacsimile from U.S. Coast Guard New Orleans station NMG will be changed from broadcasting on center frequencies of 4317.9, 8503.9 and 12789.9 kHz at 0000, 0600, 1200 and 1800 UTC, to broadcasting at 4317.9, 8503.9 and 12789.9 kHz at 0000 and 0600 UTC, and 8503.9, 12789.9 and 17146.4 kHz at 1200 and 1800 UTC. Subtract 1.9 kHz for carrier frequencies.

User comments and reception reports should be directed to marine.weather@noaa.gov.
